

Call Control is a feature that gives you security and lets you bar certain types of outgoing calls (e.g. STD, international etc) so that you can control your call costs. There are a number of different barring levels for you to choose from.

Adds security to your service by restricting calls..

Control the numbers that are dialled.

Resticts the unauthorised use of the phone.

Allows you to take control of your telephone bill

Call Control Setup Costs - \$7 per month

This feature is available to all PSTN(Landline) services.

Activating the Service

Please call Vonex on 1300487464. Call Control Activation can take up to 48 hours.
